

## **How to Apply for Reimbursement for Your Noah's World Bed**

1. Speak with your child's Pediatrician regarding your concern for their safety. Explain that they may be awake and active during "sleep hours". If possible, give specific examples of situations where their safety may have been compromised. (ie. They got out of the house, climbed on furniture, fell down the stairs, etc.)
2. Have your child's Physician write a letter of medical necessity and/or a prescription or the Noah's World Bed.
3. Contact your Medicaid/Insurance case manager and request payment for a Noah's World Bed.
4. As parents or guardian, write a letter to your Medicaid/Insurance Provider describing:
  - What your life is like now and why you need the bed?
  - How the bed will solve the concerns listed?
  - How your child will be safe with the Noah's World Bed?
5. Ask your child's therapists and teachers to write a letter as well
6. In some areas it may be necessary to have your local fire and police departments endorse this bed as safe in case of emergency. (With a Noah's World Bed you will *always* know where your child is at night)
7. You may also contact a local Durable Medical Equipment Dealer to help you with this process. (Have them contact us at [matt@noahsworldllc.com](mailto:matt@noahsworldllc.com))
